

Curriculum vitae for Klaus Mittenzwei

Personal information

First name, Surname:	Klaus, Mittenzwei		
Date of birth:	25.06.1967	Sex:	M
Nationality:	German		
Researcher unique identifier(s) (ORCID, ResearcherID, etc.):	https://orcid.org/0000-0001-5228-9502		
URL for personal website:	https://ruralis.no/en/employees/klaus-mittenzwei/		

Education

Year	Faculty/department - University/institution – Country
2002	Ph.D.: Department of Economics and Social Science, Agricultural University of Norway
1993	Master: Faculty of Agriculture, University of Bonn, Germany

Positions - current and previous

(Academic sector/research institutes/industrial sector/public sector/other)

Year	Job title – Employer - Country
Sep 2021-	Research Professor, Ruralis – Institute for Rural and Regional Research – Norway
Sep 2020 – Aug 2021	Senior Researcher, Ruralis – Institute for Rural and Regional Research – Norway
Jul 2013 –Aug 2020	Researcher – Norwegian Institute of Bioeconomy Research – Norway
May 1993 –Jun 2013	Researcher – Norwegian Agricultural Economics Research Institute – Norway

Project management experience

(Academic sector/research institutes/industrial sector/public sector/other. Please list the most relevant.)

Year	Project owner - Project - Role - Funder
2021-2024	Nofima –Sustainable Eater – Work package leader – Research Council of Norway
2021-2024	Statistics Norway – Landwell: Climate-induced welfare impacts of ecosystem goods and services from agricultural and seminatural landscapes in Norway – Work package leader – Research Council of Norway
2021-2022	Ruralis– Model simulations for the Office of the Auditor General of Norway’s work on Norwegian food security – Project leader – Office of the Auditor General of Norway
2020-2022	Ruralis – CLIMPLEMENT-How farmers and agricultural actors can implement effective climate solutions – Work package leader – Research Council of Norway

2020	Private consultant – Modeling expertise for the Country study Norway – Project leader – OECD
2019-2022	Cicero/SSB – PLATON – a platform for open and nationally accessible climate policy knowledge, Work package leader – Research Council of Norway
2019-2022	Ruralis – PROTEIN2.0: The biosynthetic protein transition: assessing impacts, outcomes and opportunities for Norway’s post-animal bioeconomy – Work package leader – Research Council of Norway
2019-2022	Wageningen University – Modelling individual decisions to support the European policies related to agriculture (MIND-STEP) – Project member – H2020
2019	NIBIO – Income generation in agriculture: Status, variation and possible explanations – Project leader – Ministry of Finance and Ministry of Agriculture and Food
2019	NIBIO – Analysis for Klimakur 2030: Diet and food waste – Project leader – Norwegian Environmental Agency
2018-2019	NIBIO – Econometric analysis of the relationship between quantity, price and subsidies in animal production – Project leader – Agriculture and Food Industry Research Funds
2017-2020	Ruralis – Land fragmentation in agriculture – causes, consequences and measures (LANDFRAG) – Work package leader – Research Council of Norway
2017-2018	NIBIO – Further development of NIBIO’s tools for economic assessment of GHG emissions from agriculture – Project leader – Ministry of Finance
2017-2018	NIBIO – Update of data for Norway in CAPRI (Common Agricultural Policy Regional Impact Modelling System) – Project leader – Norwegian Environment Agency
2015	NIBIO – Reduced emissions from production and consumption of red meat – Project leader – Green Tax Commission
2014-2017	Ruralis – Space, land and society: challenges and opportunities for production and innovation in agriculture based value chains (AGRISPACE) – Work package leader – Research Council of Norway
2012-2015	NILF – Exploring preferences among citizens and politicians for agriculture and agricultural policy – Project leader – Research Council of Norway
2010-2012	NILF – A political-economy model for Norwegian agriculture – Project leader – Research Council of Norway
2010-2012	NILF – The optimal choice and timing of agricultural policies in the presence of uncertainty – Project leader – Research Council of Norway
2010-2014	Skog og Landskap – Accounting for carbon and GHG emissions: balancing multiple landscape functions on farmland – Work package leader – Research Council of Norway
2009-2013	Ruralis – Structural changes in agriculture, rural communities and cultural landscapes (STRUCTURES) – Work package leader – Research Council of Norway
2006-2008	Skog og landskap – Landscape protection as a management tool – does it fulfil its aims? – Work package leader – Research Council of Norway

Supervision of students

(Total number of students)

Master's students	Ph.D. students	University/institution - Country
3		Norwegian University of Life Sciences, Norway
1		Martin-Luther University of Halle-Wittenberg
1		University of Oslo

Other relevant professional experiences

Year	Description - Role
2014	FACCE-JPI MACSUR "Economics of integrated assessment approaches for agriculture and the food sector", TradeM International workshop, 25.-27.11.14, Norway –Local and scientific organizer
2017	FACCE-JPI MACSUR "Assessing climate change adaptation and mitigation options: The regional and policy dimension", TradeM International workshop, 9.-12.10.17, Norway – Local and scientific organizer
2019	171th EAAE-seminar "Measuring and evaluating farm income and well-being of farm families in Europe: Towards a shared and broader approach for analysis and policy design", 5.-6.9.19, Switzerland – Member of Scientific Committee
2013-2020	Member of the Appointment Board, Norwegian Institute of Bioeconomy Research, Norway
2020-2021	External examiner for course ECN261 Agricultural Policy II at Norwegian University of Life Sciences (5 ECTS)

Track record

33 peer-reviewed scientific publications in the Current Research Information System In Norway (CRISTIN)

RG Score: 20.91 (Research Gate)

h-index: 8 excluding self-citations (Research Gate), 13 (Google Scholar)

Last updated: 25.01.2022

- **Relevant software (administration, development and application):**

Jordmod: Spatial, comparative-static, forward-looking quantitative partial equilibrium model for the agricultural sector of Norway

Agrispace: Spatial, dynamic, forward-looking quantitative partial equilibrium model for the agricultural sector of Norway comprising all farms applying for direct payments

CAPRI: Spatial, dynamic, forward-looking quantitative partial equilibrium model for the agricultural sectors of Europe

FarmDYN: Flexible, modular template to simulate farms with different branches. Fully dynamic, integer variables (investments) and indivisibilities in labour use, sub-annual temporal resolution

Technical solution for all models: GAMS

- **Fellowships, awards and prizes**

2011: Anna Lindh Fellow, Europe Center, Stanford University, USA

2015: Sociologica Ruralis Best Paper Award on Academic Freedom
